

Why **Concierge Cyber**? Don't Let Cyber Insurers Push Trusted Vendors Out of Incident Breach Response.

Organizations rely on their third-party service providers for expertise when disaster strikes - but if they carry a standalone cyber insurance policy, **those vendors will be blocked from helping them** during a cyber event because they're not on the insurer's approved panel.

Concierge Cyber Insure solves this challenge with \$100,000 in embedded cyber insurance for eligible applicants (our policy applies as primary and non-contributory) - and the exclusive My-CHOICE® endorsement, which gives your clients the power to retain your services during and after a breach.
