

Concierge Cyber is a cutting-edge, industry-leading cyber risk management membership solution designed to give organizations immediate expertise and resources—whether or not they carry cyber insurance.

Cyber insurance pays for covered losses, but our Concierge Cyber Scan proactively reduces the risk of phishing, ransomware, and business email compromise before they reach your organization.

Features and Benefits

The Concierge Cyber Scan

We conduct a non-intrusive annual Email Authorization Security Scan that evaluates your domain's DNS security controls to uncover vulnerabilities that cybercriminals commonly exploit for phishing, ransomware and business email compromise.

Concierge Cyber Email Security Assessment

Customer Name	Your Organization
Control	Status
Email Authorized Source Check	●
Digital Signature Check	●
Vulnerability to Spoofing	●
Brand Logo (not used by MS or Outlook 365)	●

HIGH PHISHING EXPOSURE – Domain vulnerable to spoofing attacks.

30-Minute Consultation
